SO Memo No. 1903

MEMORANDUM FOR: Chief, BR/CR

SUBJECT: Who's Who, International Geophysical Year

1. This office wishes to commend the Biographic Register for the excellent compilation entitled Who's Who, International Geophysical Year. This is one of the most useful publications which has yet been put out by BR/CR, and will undoubtedly be of tremendous assistance both to headquarters and to [REDACTED]

25X1C

2. It is particularly helpful, from our point of view, to have the personality summaries grouped according to country. The indices at the beginning of the study are most valuable. The only suggestion we should make at the moment on what would be, from our point of view, an improvement, would be to print the name of the appropriate country at the top of each page. This would facilitate finding specific summaries. Some explanation of the pagination used in the name index would also be helpful.

[REDACTED] 25X1A

Chief, Scientific Operations Division
